Notes

1. Front end alignment required.
2. Alignment Bushings May Be Required - See accessories page 116 .
3. Models equipped with 2 piece driveshaft will require lowering of carrier bearing crossmember.
4. Models with CV joint type drive shaft must convert to exposed joint shaft.

Nissan Titan

- One piece upper strut mount is used to increase pre-load as well as lengthen the strut
- This additional pre-load is used to offset the increased tire weight
